# Company Profile

Since 1988 Biosigma S.p.A. produces and distributes disposable plastic items for biotechnology, research, clinical chemistry and pharmaceutical laboratories.

In our over 12,000 sqm facilities, we dispose of latest injection machines and informatics tools that allow production of high standard quality articles still being competitive on the worldwide market

Every customer can count on a perfectly organized structure, ISO 13485, OHSAS 45001 and ISO 14001 certified, able to adapt our biotechnology products and services to continuous demands of the market. We offer our customers experience and professional competence; customer satisfaction and quality of our products are always our main targets.

Our efforts in research and development allow us to offer a growing and more advanced range of products both in Clinical Chemistry and Biotechnology fields.

Most of the products manufactured by Biosigma are classified as in vitro diagnostic medical devices and therefore they are CE marked in accordance with current legislation.

Since August 2011 Biosigma became part of Dominique Dutscher Group, leader in the distribution of consumables and equipments for life science and biotechnology market. Over 200,000-product catalogue and more than 140 brands such as Eppendorf, Thermo, Gilson, Nalgene Nunc.

For further information visit [www.dutscher.com](http://www.dutscher.com)

## Certifications

" Biosigma is always focused on the safety and the quality of its work reaching the most important certifications "

ISO 13485 Quality System Certificate demonstrates and promotes the company's commitment to organizational policies aimed at providing products and services in line with regulatory and market requirements related to the medical field.

ISO 14001 is a tool that will allow the organization to manage the environmental impacts of its activities in accordance with the applicable law, continuous improvement, from a pro-active attitude towards environmental issues.

The certification of the management system of health and safety in the workplace UNI ISO 45001:2018 is intended to provide security and tranquility that problems regarding the safety and health related to production processes are managed in a controlled way and that benefits in terms of safety are always monitored starting from the respect of conformity to mandatory legislation.

FDA

Registration Number: 3002945499

The production establishment and IVD Biosigma devices are registered with the FDA (Food and Drug Administration).

## CE Marking

Most of the products manufactured by Biosigma are classified as in vitro diagnostic medical devices and therefore they are CE marked in accordance with current legislation.

Thanks to the use of high quality raw materials and specific procedures during production phase, our CLEARLine products are ideal for the most sensitive applications. Manufactured under conditions with strict quality standards, the purity of the products is certified by lot by an external accredited laboratory.

## Welcome to the Jungle.

Treedom is the first platform in the world that allows you to plant a tree from a distance and follow the story of the project online.

Since its foundation in 2010 in Florence, more than 3.000.000 trees have been planted in Africa, South America and Italy. All trees are planted directly by local farmers and bring environmental, social and financial benefits to their communities. Thanks to its business model, in 2014 Treedom became part of the Certified B Corporations, a network of companies that stand out for high environmental and social performance.

## WE PREFER THE "GREEN"

### OUR COMMITMENT TO SUSTAINABLE DEVELOPMENT AND ENVIRONMENTAL PROTECTION

Since 2010, in respect of the environment, the energy used in the Biosigma plants is self-produced from renewable sources or, for the remainder, purchased with a TUV Green Certificate. CLEARLine® products are manufactured in Italy with respect for the environment.

Since 2013 Biosigma has successfully obtained the UNI EN ISO 14001 environmental certification. Achieving a balance between environment, society and economy is considered essential to meet the needs of the present without compromising the ability of future generations to satisfy their own. That is why with the adoption of this standard, Biosigma aims to protect the environment by preventing or mitigating negative environmental impacts and to continuously improve its environmental performance.

Greener items: less plastic, reduced packaging, recyclable packaging, equipment with lower electricity consumption, recyclable waste, easily repairable equipment, etc ...  
At the same time we select and prefer products with these characteristics; these items can be identified by their Go-Green logo in our catalogs and on [www.biosigma.com](http://www.biosigma.com)

We encourage smart working and video calls with our customers and suppliers.  
Let's reduce the consumption of hard coal!

Electric mobility is important.  
Free charging station available to all.

95% of our cardboard, paper and plastic waste is sorted, entrusted to a recycling company and thus escapes incineration or landfill.

The Biosigma Forest. The project is to buy 500 trees every year and to give them to our collaborators.

Lighting of our factory 100% LED.

Catalogs printed on recycled and recyclable paper, itself made from wood, a renewable resource, using non-toxic inks from a certified service provider.

## 1D CRYOLINE

CryoGen® Tubes / **1D** linear barcode

- ▶ Human DNA, DNase, RNase, Pyrogen, ATP, PCR inhibitors free certified\*
- ▶ Sterile SAL 10<sup>-6</sup> \*
- ▶ CE-IVD marked \*
- ▶ Certified IATA PI 650

- ▶ Working Temperature: suitable for storage from general cold storage refrigeration (+4°C) down to the vapor phase of liquid nitrogen
- ▶ Tubes in Polypropylene / Caps in Polyethylene and TPV

\* Certificate of analysis and Certificate of validated Beta rays treatment are available for download on [www.biosigma.com](http://www.biosigma.com)

**CLEARLine®**  
"Be cool, be safe, be CLEARLine"

**Color coded** inserts are available to fit both internal and external caps for quick sample identification

**Innovative internal and external screw caps** are produced from medical grade polyethylene (PE) and are co-molded with a thermoplastic elastomer (TPV) to provide a 100% leak-proof seal

**Produced from medical grade raw materials** that will not discolor after re-sterilizing

**Standard code 128 barcode unique and unrepeatable** on each vial includes human readable characters printed in both left and right hand orientation for easy readability by all users

**Round bottom or self standing**

**Star shaped top cavity** is engineered for use with automatic decapping equipment

Chemical resistant caps

**Slim profile** external caps ensure better fit in standard racks and boxes

Vials and caps are **autoclavable**

**Printed graduations** for accurate measurements

**White writing surface** for specimen identification

**Chemical resistant polypropylene (PP)** vial

**Self-standing vials interlock** in workstations

Our innovative screw caps **eliminate leakage and contamination**. Both internal and external screw caps are co-molded with a thermoplastic elastomer (TPV) layer and are 95kPa certified to provide a 100% leak-proof seal. This proprietary molding process eliminates the risk of contamination associated with brands that use separate o-rings.

Dispenser Box  
500 pcs (10 bags of 50)

Inner sealed Zip bag of 50 pcs  
With sterilization indicator

Boxes in polycarbonate for CryoGen® Tubes storage. Different models are available to accommodate either 25, 81 or 100 CryoGen® tubes. These durable cryogenic storage boxes are designed to be used at temperatures between -196°C and +121°C and are autoclavable at 120°C, for 20 minutes.

- ▶ For storing at temperatures as low as -196 °C (vapor phase of liquid nitrogen)
- ▶ Autoclavable at 121 °C for 20 minutes

- ▶ Numerical grid printed on the lid
- ▶ Frosted area on both lid and bottom for an easy writing
- ▶ Colored grid
- ▶ For storing at temperatures as low as -196 °C (vapor phase of liquid nitrogen)
- ▶ Autoclavable at 121 °C for 20 minutes
- ▶ Vial Picker: Removal of vials facilitated by a vial picker. Suitable for both internal and external Cryogen Tubes screw cap. Supplied with each pack of storage boxes
- ▶ In polycarbonate

## 2D CRYOLINE

CryoGen® Tubes / **2D** barcode

**CLEARLine®**  
"Be cool, be safe, be CLEARLine"

**Color coded inserts** are available to fit both internal and external caps for quick sample identification

**Innovative internal and external screw caps** to provide a 100% leak-proof seal

**Produced from medical grade raw materials** that will not discolor after re-sterilizing

**Printed graduations** for accurate measurements

**White writing surface** for specimen identification

**Datamatrix Code inserted in the bottom**, sequential and corresponding to the "Code 128" on the tube body

The 2D code is automatically generated from the linear barcode during the manufacturing process Permanent laser etching system

Strict quality control, every tube is checked to ensure they meet our exacting standards of reading

The insert is secured in place by the use of ultrasound to weld it into place

**Star shaped top cavity** is engineered for use with automatic decapping equipment

**Slim profile** external caps ensure better fit in standard racks and boxes

Vials and caps are **autoclavable**

**Standard code 128 barcode unique and unrepeatable** on each vial includes human readable characters printed in both left and right hand orientation for easy readability by all users

**Locking Base** features prevents tubes rotating within the rack/workstation during capping and decapping.

The base of the tube is provided with **channels of evacuation** of the cryogenic liquid that could possibly be trapped between the base of the tube and the 2D pad.

## CRYOPACKAGE

Automated solution on the market to eliminate the risks and complications associated with storing and retrieving samples in liquid nitrogen tanks, minimising the risks to operators.

**SMARTFREEZER® EVO and SMARTFREEZER® EVO LAB meet the following requirements:**

- ▶ Security and management speed
- ▶ Human error elimination
- ▶ Reduction of operating costs
- ▶ Remote management
- ▶ Full event traceability

## SINGLE SCREW DECAPPERS for CryoGen® Tubes

### Electronic Decapper/Recapper and Tube Picker

Versatile and easy to use tool specifically designed to decap and recap CryoGen® Tubes 2D barcode tubes and enable the user to individually pick and place tubes from CryoGen® Boxes 2D and ANSI/SLAS racks

#### FEATURES

- ▶ Rapid decapping and capping
- ▶ Very simple to use
- ▶ USB Battery charger
- ▶ Closing intensity adjustment
- ▶ Light weight

#### Package Contents

- ▶ Electronic Decapper/Recapper
- ▶ USB cable
- ▶ USB charger

### CLEARLine® Accessories

CAT. NO.	Description	Internal packaging	Sale unit
BSM580481	Single screw decapper	1	1

## Fully automatic capper / decapper for 48 places SBS ANSI/SLAS rack & 2ml CryoGen® Tubes

### Digital automatic Decapper/Recapper

#### FEATURES

- ▶ Rapid decapping and capping
- ▶ Very simple to use
- ▶ Reduce risk of cross contamination
- ▶ Reduce risk of repetitive strain injury
- ▶ Recapping process ensures that tubes are tightly capped-no loose caps after operation

**CLEARLine®**  
Accessories

The new Biosigma decapper provides a simple decapping and capping solution for CryoGen® Tubes 2D in a SBS ANSI/SLAS format rack 48 places. It offers a time saving solution that reduces the risks of repetitive strain injuries and potential sample cross contamination. Decapping and capping can be performed on 2ml CryoGen® Tubes.

#### Simple and Direct

Rather than using messy mechanical means the decapper digitally measures the force applied to cap each tube. This means it is quieter than other 48 well decappers and also does not have clutches that can wear out.

#### Easy to Use

With no extra unneeded controls, there are two buttons. One to cap and one to decap; the decapper recognises when a rack has caps and illuminates the decap button and vice versa.

BSM58048	Fully automatic capper / decapper	1	1

## A sample management system optimised for your laboratory's needs

- ▶ Samples is a laboratory sample management tool designed to keep your sample storage inventory organised.
- ▶ Samples software includes a host of features designed to streamline your sample storage workflows and makes adding and searching sample information quick and simple.
- ▶ Its intuitive import tools allow integration with existing sample databases, while its range of sample entry options and fully editable set-up parameters means the system can be optimised for your laboratory or storage facility.
- ▶ We can even add custom features, developed by our programmers to your specifications, to ensure Samples provides the exact solution for your inventory management requirements.

Inventory View and Container View

Save and customise multi-parameter searches

## EASY DATA INPUT

In addition to manual entry of individual samples using the intuitive user interface, Samples lets you easily import sample data from existing records in Excel spreadsheet or text file format. Our Import Wizard ensures your imported data is compatible, meaning adding legacy data couldn't be simpler. You can scan in samples quickly and easily using Ziath's DataPac™ barcode readers, and efficiently register any changes to your 2D storage racks and boxes.

## CUSTOM DESCRIPTORS

Samples' customisable Tracking Tags and Sample Types allow you to associate fully-searchable data with your samples. Create an unlimited number of Tracking Tags to describe your samples using a variety of descriptor formats including free text, quantities, dates and even links to documents such as safety or regulatory datasheets. Our Sample Types labelling feature allows differentiation between, for example, samples in multiple laboratories, and each Sample Type can have its own set of Tracking Tags.

## POWERFUL SEARCHING

Samples lets you easily switch between viewing graphical displays of container layouts or a list of all containers and samples. Our multi-parameter search tool allows you to combine search terms to locate specific samples using Tracking Tags and Sample Type entries, keywords, location or date records. You can even save regularly-used searches and customise them for future use. And with our archive function, you will never lose access to historical data, even when a container has been permanently removed from storage.

# Scanner & Software by Ziath compatible with CryogenTubes® 2D

## DataPac™ Cube Rack Reader

A compact, versatile, quick and robust scanner with minimal cabling. The DataPac™ Cube Rack Reader is a 2D datamatrix tube camera reader with a scan & decode time of 1-2 seconds on a 'normal' computer. The Cube can read all racks on the market including 2D Cryoboxes and SBS racks; even 384 racks. The DataPac™ Cube 2D scanner offers easy, out-of-the-box set up and is delivered pre-calibrated and ready to scan.

**This instrument can scan all racks in the SBS format, regardless of the configuration or number of tubes, and by a quick and easy change of mask (included as standard) it can also scan all 2D Cryoboxes formats.**

Our new automatic rack type detection feature means that you no longer have to configure the Cube for all rack types. Simply place your rack on the scanning window and the software will work out what type of rack it is and run the scan - easy!

Free DataPac™ software upgrades for life.

Ziath's Cryoprotection™ reduces condensation caused by cold racks. It uses no heat, no fans and does not add any heat into the rack being scanned.

DataPac software is ten years in development and is not only an amazing barcode reading tool but also intuitively easy to use

- ▶ Compatible with 24, 48, 96, 240, 384 SBS racks
- ▶ Compatible with 81 and 100 2D Cryoboxes
- ▶ Smallest 'scan all' scanner on the market
- ▶ Camera based instrument resulting in rapid imaging and decoding
- ▶ Footprint ideal for benchtop and integration
- ▶ Minimal cabling
- ▶ All the exported information can be integrated into systems such as: Oracle, SQL, MySQL, Postgres, HSQL and many others.
- ▶ DataPac™ software displays the results of the scan

# MICROCENTRIFUGE TUBES SNAP CAPS

## CLEARLock™ MICROTUBES IN PP WITH SECURE LOCKING SYSTEM

### CLEARLock™ The best protection ever for your samples!

CLEARLock™ microtubes combine the security of a screw cap tube with the ease-of-use of a snap cap tube. They assure supreme protection to your samples by providing superior security during centrifugation, a precise sealing preventing evaporation, essential features during lab procedures.

CLEARLock™ microtubes have been specially studied and designed to withstand up to 30,000 xg during centrifugation without any rupture and to preserve the sample integrity.

The hinged lid prevents any unintentional opening during use especially when working with hazardous/precious samples or incubation. The precise sealing avoid also evaporation during long-term storage.

Human DNA, DNase, RNase, Pyrogen, ATP, PCR inhibitors free, each production batch is inspected and certified.

CLEARLINE PACKAGING

RECLOSABLE ZIP BAG

HINGED LID

HIGH SPEED CENTRIFUGATION

- ▶ Hinged lid prevents any unintentional opening during use
- ▶ Precise lid sealing avoids evaporation during long-term storage
- ▶ Pierceable writing cap
- ▶ Optimal transparency
- ▶ Centrifuged at:  
0,5ml - 1,5ml - 2,0ml 17,500 rpm - 30,000 x g
- ▶ Temperature of use: -80°C + 100°C

- ▶ Autoclavable open at +121°C for 20 minutes
- ▶ Zip bags, re-closable
- ▶ Graduated with writing area
- ▶ Particularly suitable for application in PCR and other applications in molecular biology
- ▶ Human DNA, DNase, RNase, Pyrogen, ATP, PCR inhibitors free certified\*
- ▶ CE-IVD marked \*

\* Certificate of analysis, and Declaration of conformity CE-IVD available for download on [www.biosigma.com](http://www.biosigma.com)

# MICROCENTRIFUGE TUBES SNAP CAPS

CLEARLock™ 5ml microtubes in PP with secure locking system

5 ML CLEAR LOCK™ microtubes are designed for samples too large for standard microcentrifuge tubes (1.5ml or 2.0ml) but in the meantime too small for 15 ml centrifuge tube. They ensure a contamination-free pipetting and they are the best choice when working with medium-sized sample volumes. In many applications it may replace the 15 ml test tubes, reducing the waste plastic, storage space needed and transport costs.

Secure locking system with audible closing click an additional guarantee during lab procedures.

Easy-to-open cap reduces operator's hand fatigue preserving the sample integrity.  
Pierceable writing cap.

CLEARLine® guaranteed purity.  
Tests and certificate available on request.

- Graduated with writing area.

Centrifuged at: 14,200 rpm - 21,000 x g  
Temperature of use: -80°C + 100°C  
Autoclavable open at +121°C for 20 minutes

Made from highly transparent, chemical resistant Medical Grade polypropylene for easy visibility of pellets.  
Non Cytotoxic - Non Hemolytic

It may be used in all applications that require heating.  
Use the tube clips at temperature above 80°C to prevent cap opening and consequent sample loss.

# MICROCENTRIFUGE TUBES SCREW CAPS

## MICROCENTRIFUGE TUBES WITH SCREW CAPS

Biosigma's microcentrifuge tubes are manufactured from medical-grade raw material to exceed the exacting standards demanded by researchers.

- ▶ 3 styles of caps to choose from and 6 sizes of conical bottom or self-standing tubes (0.5, 1.5 and 2ml)
- ▶ Withstand high speed centrifugation up to 16,400 rpm or 25.000xg and temperatures from -85°C to +121°C
- ▶ Autoclavable to 121°C. for 20 minutes
- ▶ Tubes made in medical polypropylene and cap in medical polyethylene
- ▶ Sterile SAL 10<sup>-6</sup>
- ▶ Certified DNase/RNase/Pyrogen free to satisfy the highest demands in several biotechnological applications

\*\* Raw materials tested in according to "the United States Pharmacopoeia" (USP) and with a "Drug Master File" (DMF) at the FDA.

# FILTER TIPS

## STERILE FILTER TIPS, RACKED, IN LIFT-OFF LID BOXES

Your solution for liquid samples.

- ▶ Filtered tip, in natural polypropylene, racked, available in lift-off lid boxes
- ▶ Certified DNase, RNase-free, human DNA, PCR inhibitors and Pyrogen free
- ▶ Sterile
- ▶ The ISO 8655 norm, as established by an independent laboratory, guarantees that the ClearLine® tips do not alter the pipette's technical specifications as set by their manufacturer - Visit [www.dutscher.com/clearline](http://www.dutscher.com/clearline) to view the tips' compatibility test results with your pipettes.
- ▶ Autoclavable at 121°C
- ▶ Supplied in a rack with removable lid, for under hood use

Certificate ISO-8655

Available:

- ▶ In standard virgin polypropylene
- ▶ In low Binding: the tip, hydrophobic PP made, reduces the surface tension with two benefits: a maximal sample refund and a minimal retention of DNA and proteins (weakest retention respect to the standard one)

# FILTER TIPS

## Reload system

Reload tips system ClearLine® with hinger-lid rack  
Empty box are sold separately

### CLEARLine® reload system

- ▶ Quick, simple reload system
- ▶ Standard non-filter tips, non-sterile, compatible with most pipette brands
- ▶ Eco-friendly: cardboard packaging (reduces plastic waste)
- ▶ Space saving: requires 57% less space than other reload systems
- ▶ The non-filter tip racks from the reload system are compatible with the ClearLine® hinged lid boxes for filter tips (this system is a great way of easily reducing plastic waste)

# SEROLOGICAL PIPETTES

## CLEARLine® SEROLOGICAL PIPETTES

Serological pipette of 1 ml, 2 ml, 5 ml, 10 ml, 25 ml, 50 ml and 100 ml designed to be used with electromotion pipette controller and manual pipette pump to transfer liquid in various volume for laboratory use.

- ▶ Seven types of volume 1, 2, 5, 10, 25, 50 and 100 ml
- ▶ Bidirectional graduation and negative graduation improve the accuracy
- ▶ Color code on tips make pipettes easily recognizable
- ▶ Sterile at gamma rays  $10^{-6}$
- ▶ Packaged in bags
- ▶ Bulk packaging and individually packaging in plastic/paper wrapper
- ▶ RNase-free, DNase-free and Non-pyrogenic
- ▶ Graduation calibrated, certificate available on request

Packaging information

- ▶ Lot number printed on packaging for tracking
- ▶ Plastic/paper wrapper easy to open

**CLEARLine®**  
"Be cool, be safe, be CLEARLine"

### Sterile individually wrapped

Color code on tips make pipettes easily recognizable

# CENTRIFUGE TUBES

## CENTRIFUGE TUBES

### CLEARLine® Centrifuge Tubes

CLEARLine centrifuge tubes are applicable in molecular biology as disposable laboratory consumables which are manufactured from high transparency polypropylene. Two types of volume are available to meet general need: 15 ml and 50 ml. A ring molded on inner surface of cap make an excellent seal to prevent leak of liquid. Marking area is printed in white to make tube easy for identification. Clearly graduation in black on the surface is helpful for users to calibrate. Preferably, 3 ml graduation molded on conical bottom improves the accuracy of centrifuge tube.

All CLEARLine centrifuge tubes are packaged in bags or racks sterile, RNase-free, DNase-free and Non-pyrogenic.

- ▶ 15ml and 50ml volume
- ▶ High transparency polypropylene
- ▶ Molded ring in the cap inner surface grants an excellent seal to prevent leak of liquid
- ▶ White writing area for easy identification
- ▶ Black graduation
- ▶ Conical and self-standing bottom
- ▶ Can be centrifuged up to 14,800 x g for 50 ml and 10,280 x g for 15 ml centrifuge tubes
- ▶ Sterilised at gamma rays SAL 10<sup>-6</sup>
- ▶ RNase-free, DNase-free and Non-pyrogenic
- ▶ Autoclavable at 121 °C during 20 min.

**CLEARLine®**  
"Be cool, be safe, be CLEARLine"

Packaging information:

- ▶ Lot number is printed on packaging for tracking
- ▶ Heat-sealed bag, reusable zip bag
- ▶ PS rack, heat shrinking pack
